

Equipment Demo Day

For Vegetable Producers

Wednesday, June 26th, 4:30—7:30

UNH Woodman Horticultural Research Farm

Spinney Lane, Durham NH

Featuring a two-wheel BCS tractor with various implements useful for vegetable growers, a no-till transplanter for planting and optimizing soil health, and tarping and roller crimper techniques for terminating cover crops.

Presenters from NH Agricultural Experiment Station at UNH, UNH Cooperative Extension, ATTRA, and the Natural Resources Conservation Service will discuss topics like no-till planting, cover crops, soil health and more.

FREE to attend. RSVP online at NHSoilHealth.org or by calling (603) 749-3037

University of New Hampshire
